Carnauba Extra Gloss

Carnauba Boosted Splattering Gloss & Conditioner

Product Description:

Aquashine Carnauba Extra Gloss is a carnauba boosted splattering gloss & conditioner wax, concentrated liquid with a pleasant bubble gum fragrance. Uniquely formulated with non-staining dye for use in manual or auto wash bays via splattering wax gun or pumping program . Suitable for both single cycle and reclaim type operations and compatible with equipment used in self-service car washes.

Aquashine Carnauba Extra Gloss comes in 3 vibrant colours (Red Blue and Yellow) to visibly 'entertain' and add value for your customers!

Contains real Carnauba Wax for a long lasting shine and the ultimate wax paint protection.

Completely biodegradable with no phosphates makes it an ideal product for use in areas where effluent outputs may be restricted.

Aquashine Carnauba Extra Gloss effectively provides a vibrant colour foam to show full application and extra contact time for carnauba integration / protection onto paint film. Performs well in hard or soft water and is free rinsing.

Aquashine Carnauba Extra Gloss produces copious quantities of high lubricity, dense lustrous 'splattering' foam at very economical use dilutions. The high lubricity reduces surface friction while maintaining excellent cling qualities.

- Contains real Carnauba wax Unique emulsion detergent system allows maximum effective performance.
- Replace Traditional Colour foams
- For added Carnauba Hard Water Tolerant Performs well in both hard or soft water.
- Non Phosphate Can be used in municipalities where phosphate effluent is restricted.
- Biodegradable Completely biodegradable. No effluent disposal problems.
- Suitable for use with foam brush and foaming equipment used in self-service car washes.

Appearance Moderately thick liquid
Colour Red, Blue and Yellow hazy solutions
Fragrance Mild fruity bubblegum
pH (Concentrate) Mild neutral
pH (Concentrate) 6.0 - 7.0
Specific Gravity 0.98 -1.00
Flashpoint Non-flammable
Biodegradability Conforms to AS1792-1976
Solubility in water Miscible at all dilutions
Shelf Life 1 Year minimum

Application:

Initial Charging of Reclaim Systems: Calculate volume capacity of water in system; charge at the rate of approx. 1 litre per 1,000 litres. Adjust injector to deliver dilutions for normal operating conditions. In Self Service Washes

Foam Gun in Self Service Washes: Adjust proportioning equipment to achieve a final use up to a dilution of 30-60ml per vehicle.

Handling Precautions: If swallowed, DO NOT induce vomiting. Give a glass of water. If skin contact occurs, remove contaminated clothing and wash skin thoroughly. If in eyes, hold eyes open, flood with water for at least 15 minutes. Remove contact lenses if worn. If irritation persists seek medical advice.
