

# AQUARIUS

## Drilling & Water Treatment

*Servicing all your bore, dam, rain & town water treatment needs.*

## CHLORINE REMOVAL FILTRATION

### ABOUT CHLORINE REMOVAL FILTRATION:

- Filtrations down to 1-3 micron and 0 ppm of chlorine. This produces exceptionally clean and chlorine free water.
- No loss of pressure.
- Automatic backwash on volume count or timer or both.
- 6 years to replace the media and carbon.
- Media is extremely hard and doesn't lose its edge like standard sand.

### CHLORINE FILTRATION APPLICATIONS:

This Glass and activated Carbon – Silver Impregnated delivers highly effective level of filtration that would be ideal in the following applications:

- Pre-filtration for desalination plants.
- Pre-filtration for Town Water
- Pre-filtration for laboratory/ factory standard water.
- Bore Water.

### SINGLE OR TWIN SIZE VESSELS:

- 09" x 48" - 28 litres of superfine filter media.
- 13" x 54" - 65 litres of superfine filter media.
- 16" x 65" - 110 litres of superfine filter media.
- 21" x 65" - 180 litres of superfine filter media.
- 24" x 62" - 280 litres of superfine filter media.

6 years warranty on  
media
