

23rd January 2016
Mr Brad Barrack
Castle Chemicals
16 Rural Dr
Sandgate

Dear Brad,

It has been nearly three years that we have been a distributor of Castle Chemicals products and we have benefited from and appreciated the quality products, prompt service and excellent support that your company has provided to us.

Since taking on the Castle range of products our knowledge of the chemical industry has increased enormously and all of our sales staff have benefited. Combined with the regular training that Castle provides, we have seen good growth with our chemical and detergent sales. There have been many sales opportunities arisen as a result of our partnership with Castle and we now have a good spread of clients ranging from health care to heavy industry that are now using Castle products.

We look forward to the next stage with our involvement with Castle Chemicals and with the support that is provided to us, we anticipate further growth and profitability with the detergent and chemical sales that arise with the opportunities that are generated by our partnership with Castle.

Kind regards

Clark Fletcher
Director.
