TO WHOM IT MAY CONCERN

Castle Chemicals and our company have had a long standing working relationship/partnership for over 10 years. It began in June 2005 when Mark Barrack the current Managing Director of Castle Chemicals approached us about being their distributors for North Western New South Wales. Our objective was to promote and increase the sales and presence of Castle Chemicals within the area while still retaining the existing customer base.

Together with the continuing help of Mark and his team at Castle we have become a powerful and effective major distributor in our area. Regular training has been provided by Castle Chemicals over the years which have significantly increased our knowledge of Chemicals and the industry. Our customer base has grown considerably over the years and today we supply products to most businesses from the corner coffee shop, nursing homes, motels and hospitality to major mining and industrial accounts.

Our business will continue to be successful with the support from our major suppliers like Castle Chemicals who pride themselves on quality products, service and support. Should you require any further information please do not hesitate to contact the undersigned.

Yours faithfully

Adrian Thurlow

Director
