To Whom it May Concern,

We at S.R.H. Milk Haulage have been using Castle Chemicals for just over 12 months now. Prior to that we were using a large international company but were a little dissatisfied with the service & pricing. Phil Rosenberg from Castle approached us & offered some alternative products & pricing.

Our fleet consists of approximately 60 milk haulage trucks, the majority being B - Doubles & use over 3000lts of chemical per month through our C.I.P. cleaning system here at Rutherford in N.S.W.

Phil, his Manager & Head chemist came to our depot to show them the system we had in place. They recommended three products for us, Hurricane, Alkasil & Magnum for low temp washing.

We compared the pricing & are making considerable savings. Also the products are doing their job as we get regular swab testing on the inside of our trucks on a regular basis.

I would have no hesitation in recommending the Castle products & are happy with the service Phil & his company provide.

A handwritten signature in black ink that reads 'Scott Harvey'.

Scott Harvey
Managing Director
