To Whom it may concern

Gabes Cleaning Service has a close relationship with Castle Chemicals at Sandgate who have supplied our company with chemicals, equipment and technical support for nearly 30 years of operation.

Gabes Cleaning Service commenced operation in 1984 with very little skills and knowledge in the cleaning industry. We were fortunate to contact Castle Chemicals who supplied us with all of our cleaning needs in chemicals, equipment, onsite advice and training. I give full credit to Mark Barrack and his team for their great assistance in those early days. Gabes Cleaning service has now grown to be one of the largest private cleaning companies in the Hunter employing over 100 staff.

We have the same close relationship with Castle Chemicals today as we continue to receive that same personal service and support we received so many years ago. I cannot recommend Castle Chemicals high enough and look forward to our ongoing close relationship into the future.

If I can be of any further assistance please feel free to contact me at any time on 0416116009.

Graham Murphy
Managing Director
