To whom it may concern.

GV Crop Protection Pty.Ltd. has been recommending & selling Castle Chemicals Post Harvest products for over fifteen years, We have been extremely pleased with our customer feedback when Castle Chemical Post Harvest products are used.

The Post Harvest products are of the highest quality and come with expert advice from the foremost authority on post harvest fruit finishes Brad Barrack .
Brad pioneered this range of products in Australia and is invaluable when advice is required.

Castle Chemicals Post Harvest has a large range of post harvest products including different types of Fruit Coatings eg. Shellac, Carnauba & a mixtures of both for every possible application and requirement, it's only a matter of communicating your requirements.

Castle Chemicals Post Harvest has all the necessary products to prepare the fruit and clean the fruit handling machinery during the fruit packing process.
Castle also has a huge range of cleaning products that we have been recommending and selling for the past three years into Hospitals, Aged Care Facilities, Food Processing Companies & Industry in general.
We have had the same positive feedback from our customers with their range of cleaning products.

We at GV Crop Protection Pty.Ltd. Recommend without hesitation Castle Chemicals Post Harvest & Cleaning products.

I am happy to talk to anyone in more detail about these products.

Kind Regards
