

Green Pro Stainless Steel

Cleaner and Polish

Green-Pro Stainless Steel Cleaner is an environmentally-friendly stainless steel cleaner and polish derived from natural and vegetable sources. A light yellow, clear liquid; Green-Pro Stainless Steel Cleaner is an economical, non-flammable, high-performance product that can replace many common petrochemical (mineral oil) based products.

Green Pro
environmentally responsible solutions

 Contains no acids, water, silicones or abrasives.

 It will not cause spotting or streaking.

 Neutral pH plant-based solvent esters rapidly cut through grease and grime while maintaining a safe employee environment – also classified as Food Safe.

 It leaves a high-gloss, fingerprint-resistant, protective shine on all treated surfaces.

 For use on stainless steel, aluminium, copper, brass, carbon steel, and all other surfaces not harmed by solvents.

 Available in a 6x750mL carton or 4L bottle.

GREEN-PRO STAINLESS STEEL CLEANER AND POLISH is registered with Accord's rECOgnised environmental credentials scheme, and is listed on the NSW Local Government's Sustainable Choice product database.
