AQUASHINE SPLATTER WAX

CARNAUBA BOOSTED SPLATTER FOAM CONDITIONER

CARNAUBA SPLATTER WAX

High Foaming, Concentrated Splatter Foam Conditioner.

PRODUCT DESCRIPTION AND USE:

Aquashine Carnauba Splatter Wax is a high foaming, concentrated liquid detergent with a pleasant bubble gum fragrance. Uniquely formulated for use in tunnel, automatic and manual wash bays via a foam applicator head. Suitable for both single cycle and reclaim type operations and compatible with equipment used in self service car washes.

Aquashine Carnauba Splatter Wax comes in 3 vibrant colours (Red Blue and Yellow) to visibly 'entertain' and add value for your customers!

Contains real Carnauba Wax for a long lasting shine and the ultimate wax paint protection.

Completely biodegradable with no phosphates makes it an ideal product for use in areas where effluent outputs may be restricted.

Aquashine Carnauba Splatter Wax effectively provides a vibrant colour foam to show full application and extra contact time for carnauba integration / protection onto paint film. Performs well in hard or soft water and is free rinsing.

Aquashine Carnauba Splatter Wax produces copious quantities of high lubricity, dense lustrous 'splatter' foam at very economical use dilutions. The high lubricity reduces surface friction while maintaining excellent cling qualities.

BENEFITS:

- **Contains real Carnauba wax** Unique emulsion detergent system allows maximum effective performance.
- **Replace Traditional Colour foams** For added Carnauba!
- **Hard Water Tolerant** Performs well in both hard or soft water.
- **Non Phosphate** Can be used in municipalities where phosphate effluent is restricted.
- **Biodegradable** Completely biodegradable. No effluent disposal problems.
- suitable for use with foam brush and foaming equipment used in self-service car washes.

TECHNICAL BULLETIN

PRODUCT CHARACTERISTICS:

Appearance Moderately thick liquid
Colour Red, Blue and Yellow hazy solutions
Fragrance Mild fruity bubblegum
pH (Concentrate) Mild neutral
pH (Concentrate) 6.0 – 7.0
Specific Gravity 0.98 -1.00
Flashpoint Non-flammable
Biodegradability Conforms to AS1792-1976
Solubility in water Miscible at all dilutions
Shelf Life 1 Year minimum

DIRECTIONS FOR USE:

Initial Charging of Reclaim Systems

Calculate volume capacity of water in system; charge at the rate of approx. 1 litre per 1,000 litres. Adjust injector to deliver dilutions for normal operating conditions.

Foam Gun in Self Service Washes

Adjust proportioning equipment to achieve a final use up to a dilution of 1:300.

HANDLING PRECAUTIONS:

If swallowed, DO NOT induce vomiting. Give a glass of water. If skin contact occurs, remove contaminated clothing and wash skin thoroughly. If in eyes, hold eyes open, flood with water for at least 15 minutes. Remove contact lenses if worn. If irritation persists seek medical advice.
