

Laundry Detergent

Laundrette Mild Liquid Detergent

Product Description:

LAUNDRETTE is a blue, slightly viscous liquid. It has been specially formulated incorporating biodegradable surfactants, sequestering agents and optical brightener to achieve outstanding results for general laundry purposes. The product is indicated for the washing of whites and colours, cottons and synthetics.

LAUNDRETTE can be used on its own (ideal for woollens) or with FABRIC SOFTENER.

FEATURES:

LAUNDRETTE has an anti-redepositing agent to soils suspended and assists in the complete removal of soils and detergent by thorough and efficient rinsing.

LAUNDRETTE contains an optical brightening agent which enhances and revitalises colours. These agents therefore, counteract the tendency for 'greying' which often occurs in fabrics after prolonged washing.

Application:

LAUNDRY DETERGENT can be diluted for use as follows:-

DIRECTIONS FOR USE:

Dosage / Kg los

Light Soils 3 – 4ml / Kg
