

Technical Bulletin

Top Suds Hand Dish Wash Detergent

Product Description:

TOP SUDS is a green liquid. It has been developed specifically as a dishwashing detergent and possesses excellent cleaning properties. It maintains lather throughout the washing up without development of greasy scum in the sink. Because of the excellent wetting qualities of TOP SUDS, articles washed in it dry quickly and streak free to a sparkling finish.

TOP SUDS can be used in: Hospitals, Clubs, Restaurants, Schools, Cafeterias, Hotels, Motels, Guest Houses, Convalescent Homes, Cafes, and Household Kitchens.

Application:

TOP SUDS may be added manually to the sink. A dessertspoon full is found to be adequate for the average wash up.

For normal dishwashing requirements, the proportioning unit should be set to deliver from 3 ml to 4 ml of TOP SUDS per litre of wash water.

Food Safety Statement:

With regard to the use of this product as a cleaner and / or sanitiser that may have incidental contact with food:

- 1) The raw materials / ingredients of this product are permitted as 'processing aids' as listed under clause 12 of the Food Standard Code 1.3.3 (Food Standards Australia New Zealand FSANZ) or
- 2) Are Generally Regarded As Safe (GRAS) according to the US Food and Drug Administration (FDA) or are recognised in the US Code of Federal Regulations (CFR) Title 21 part 178 as indirect food additives.

When used in accordance with the directions described in this product technical bulletin, this product complies with these recognised food safety parameters.
