Bulls Eye

Moss, Mould and Mildew Remover

Product Description:

Castle BULLS EYE has a unique combination of biodegradable selective surfactants for moss removal, mould removal and other soil removal on any exterior surface. When diluted with water and applied, it immediately attacks that unsightly moss, mould, soil and grime. Each time it rains, this safe, cleansing combination reactivates to help flush the moss, mould, soil and grime without scouring the surface it has infested. BULLS EYE is a biocidal eliminator spray and gone formulation. A highly concentrated detergent sanitiser for one step cleaning and sanitising of surfaces affected by mould or mildew. Ideal for clean up after natural disasters, flood etc.

BULLS EYE can be used on any exterior surface; it's great for your roof, concrete paths, driveways, bricks and paving, natural stone including sandstone, ceramic pots, pool surrounds, timber weather boards, painted surfaces, clay and concrete roof tiles, textured coatings, canvas awnings, tennis courts, decramastic, fibrolite cladding, astro turf and aquatic accessories including boats.

- Non-caustic, non-acidic and contains no bleach.
- Helps save water
- Safe for any outdoor surface
- One-step application: Simply spray and walk away! BULLS EYE does the work for you
- Eliminates even the toughest cases of moss, algae, lichen, mould or mildew
- Long-lasting: Keeps the surface clean for at least 1+ years in most cases
- Bio-degradable

Application:

BULLS EYE is a high strength formulation allowing greater dilution to give outstanding results and maximum economy. BULLS EYE may be diluted at between 1 part BULLS EYE to 10 parts water (e.g. 1.0L in 10L) and 1 part to 20 parts water. Apply as a spray and allow 10 minutes to attack mould, then either: leave without rinse to allow natural action, or agitate to assist soil break up. Either leave to allow rain to wash away soils, or wash down / rinse with fresh water to remove soils and re-apply (with no rinse) to inhibit further return of staining. Alternatively just apply and walk away! Moss and mould will show the effects within days and the residual product will keep on working every time it rains, for up to 1 year in most cases.

SHELF LIFE: As a quality assured manufacturer, Castle Chemicals has a stringent Quality assurance programme. As part of this regime, the label on this product shows a batch number and date of manufacture. This product has a shelf life of 12 months from the label printed date of manufacture.
