D-Wax

Powerful De-waxing Fluid

Product Description:

D-WAX is a clear, brown liquid, formulated for efficient and economical removal of protective wax coatings on new vehicles during pre-delivery.

Application:

D-WAX is an effective blend of high flash solvents, wetting agents and emulsifiers, able to dissolve new vehicle wax coatings without dulling the paintwork.

D-WAX should be either sprayed on or washed over the vehicle either undiluted or diluted with solvent up to 6 parts to one. Then hosed clean and wiped dry.

SHELF LIFE: As a quality assured manufacturer, Castle Chemicals has a stringent Quality assurance programme. As part of this regime, the label on this product shows a batch number and date of manufacture. This product has a shelf life of 24 months from the label printed date of manufacture. This information contained herein is based on data considered accurate. However, no warranty is expressed or implied regarding the accuracy of these data or the results to be obtained from the use thereof. Castle Chemicals assumes no responsibility for personal injury or property damage to vendees, users or third parties caused by the material. Such vendees or users assume all risks associated with the use of material.
