Coconut Oil Based Antibacterial Hand Cleaner

Product Description:

HAND DIS contains one of the most effective broad spectrum antimicrobial agents available for hand cleanser disinfection. HAND DIS combines a lauryl sulphate surfactant, derived from coconut oil, with Irgasan DP300 (skin disinfectant) to give a high quality every day skin antiseptic.

- Healthcare
- General Nursing Centres
- Doctors Consulting Rooms
- Animal Breeding and Care Centres
- Foodstuff, Cosmetic and Pharmaceutical Industry
- Restaurants and Hotels

Application:

Surgical Wash. Wet hands and arms first. Operate lever twice. Rinse. Repeat procedure a second time. Rinse and dry thoroughly. Keep out of eyes, mouth and ears.

1. Wet hands first.
2. Pull lever forward to dispense.
3. Rub into skin briskly to work up a rich creamy lather.
4. Rinse off with water.
5. Dry hands thoroughly.

HAND DIS contains Irgasan DP300 which works in the following ways:
On test conducted by Ciba Geigy with Escherichia Coli

- Prevents the intake of various essential substances
- Bursts the cytoplasmic membrane
- This mode of action is non conducive to the possible emergence of true resistant strains.

Test results are available that show that Irgason DP300 at 1% to be more effective than hand cleanser antiseptics containing 4% chlorhexidine digluconate. Packed into 200L Drum, 5 litre, 6 x 500ml, 12 x 750 or 6 x 1L Polybag.

Food Safety Statement:
