Castle Chemicals Commitment

Since 1972, Castle Chemicals has built its reputation on the manufacture and supply of innovative, value-added products, systems and services.

ISO 9001, Quality Management Systems status became part of our culture in 1994. We have used this systems approach to business to drive continual improvement in product development, quality and process traceability.

A simple business strategy developed in 1972 by the late Des Barrack, the founder, still sets the standard for Castle Chemicals into the future. "We work hard to earn the loyalty of our customers by providing innovative quality products that get the job done, along with experience, service and training that is carefully designed to meet our customers needs."

'Solutions, Chemistry, Service'

Dose n Fill chemical management system is the epitome of cleaning technology-the perfect union of safety, efficiency, and performance.

Efficient

- Dose n Fill ultra-concentrates are able to deliver 5 times more Ready to Use product than a standard concentrate.
- Dispensing technology provides dosing management, standardizing and minimizing in-use costs.
- Compact packaging reduces requires chemical storage space.

Safe

- Reduced pack sizes (2.5L bottles) improves employee safety.
- Closed-Loop & Safe-Link valves prevent any spillage.
- Colour-coded caps and valves reduce chance of dispensing (or mixing) the wrong chemicals.

Performance

- 2.5L ultra-concentrates equate to 20L of industry-standard products.
- 9 unique, proprietary formulations for every cleaning need in healthcare and hospitality.
- Hi-performance chemistry delivered in conjunction with world-class service.
- Available in the Promax or Mulit Dose Locking Cabinet unit.

Dose n Fill

Reducing our environmental impact by:

- Meeting or exceeding industry biodegradability standards.
- Ultra-concentrates serve to reduce shipping frequency & water weight, conserving transportation costs & emissions.
- Reducing packaging used.
- Eradicating possibility of in-use waste (i.e. spills, contamination etc).

Promax System filling station

Safe Link Valve - stops excess product use, spills and colour coding for ease of use

Mulit Dose Locking Cabinet System

Waterless manual closed loop dosing system

Easy grip handle to pull and prime chemical reservoir

Built in anti-drip valve to ensure accurate dosing

Ergonomic design for user handling and safety
