

Technical Bulletin

X Mould

Chlorinated Tile Cleaner and Sanitiser

Product Description:

X MOULD is a complex of synthetic readily bio degradable detergent types, providing superior wetting, penetration and chemical degradation of common soils, oils and greases.

X MOULD is specifically made for removal of mould from bathrooms, concrete floors, tiles and hard to clean surfaces.

X MOULD when used correctly is an efficient wide spectrum biocide.

- Health Care
- Food Processing Plants
- Roof Tile Cleaning
- Mine Site Bath House Areas
- Concrete Floors
- Caravan Park Shower Blocks
- Motel Shower Recess
-

Application:

X MOULD may be used at a dilution of 1:20 to obtain a minimum of 1750 ppm of available chlorine. This level is effective for washing and sanitising a wide variety of surfaces such as floors, tiles, porcelain, glass, walls, partitions, equipment, furniture, machinery, stoves, refrigerators etc.

Ensure adequate ventilation when using. Vapour may be harmful. May give off dangerous gas if mixed with other products.
