

Technical Bulletin

A-Sonic

Acid Cleaner for Ultrasonic Bath

Product Description:

The scope of this technical bulletin is primarily the removal of strong mineral residues like lime, silicates, as well as rust and scale, metal oxides, grease & oil films from steel, stainless steel, glass, ceramics, plastics & rubber by the use of a ultrasonic tank or bath.

A-SONIC is a specialty acid cleaner for Ultrasonic tanks & baths. It is described as:

- Highly Concentrated solvent/acid cleaner.
- Slightly viscous liquid.
- With corrosion protection
- Contains: Phosphoric Acid
- NOT FOR USE on light & non-ferrous metals, like tin & zinc

Application:

A-SONIC is to be diluted with water to a 5% solution and immersed in the Ultrasonic tank or bath for 2-10 minutes

- Miscible with water in all proportions.
- Doesn't lose strength on exposure to air.
- Long shelf life.
- Non flammable.

SHELF LIFE: As a quality assured manufacturer, Castle Chemicals has a stringent Quality assurance programme. As part of this regime, the label on this product shows a batch number and date of manufacture. This product has a shelf life of 24 months from the label printed date of manufacture.
