Dear Alex

Subject: Castle Chemicals Testimonial

Angove Family Winemakers have been using Castle Chemicals for the last 4 years. We have found them to be very knowledgeable and experienced in CIP cleaning and sanitation. Castle Chemicals have always provided our company with quality products, in particular Alkasil. The surfactant system that is used in this product is the best we have come across. The cleaning power that is delivered by Alkasil, far outweighs that of 46% Caustic. We would recommend Castle Chemicals, in particular Alkasil, to any potential client.

Regards

Kelvin Lehmann
Cellar Manager
Angove Family Winemakers
