Blanket Soft

Liquid Detergent for Wollen Fabrics

Product Description:

A highly efficient liquid for all woollen laundry work. Mild yet effective on delicate fabrics. Domestic and industrial laundries. The obvious choice for hotels, motel and clubs. Where instant solubility makes it a preferable alternative to powders.

A high activity opaque white liquid detergent, developed for Australian laundries. High levels of gentle synergistic surfactants have been incorporated into BLANKET SOFT to produce a soft, but effective cleaning action on woollen and other sensitive garments.

Hard water is no longer a problem, nonionics incorporated into the surfactant system ensure calcium and magnesium ions are solubilised in the wash cycle.

Application:

Domestic Laundries	1/3 of a cup per 6 kg load.
Industrial Laundries	1 Litre per 270 kg load.
Type:	An opaque liquid system
Colour:	White
Odour	Nil
pH:	8.5 – 10.0
Flammability	Non flammable
Toxicity:	Non toxic
Miscibility:	Miscible with water in all proportions
Composition:	Nonionics, anionics, sequestrants, foam boosters.
Hard water tolerance:	Excellent

SHELF LIFE: As a quality assured manufacturer, Castle Chemicals has a stringent Quality assurance programme. As part of this regime, the label on this product shows a batch number and date of manufacture. This product has a shelf life of 12 months from the date of manufacture. This information contained herein is based on data considered accurate. However, no warranty is expressed or implied regarding the accuracy of these data or the results to be obtained from the use thereof. Castle Chemicals assumes no responsibility for personal injury or property damage to vendees, users or third parties caused by the material. Such vendees or users assume all risks associated with the use of material.
