

CHLOR 12

Chlorine Disinfectant

Product Description:

CHLOR 12 is commercial grade of Sodium Hypochlorite, greenish yellow liquid exhibiting a strong chlorine odour.

Used as a disinfectant for post harvest fruits and vegetables between 100-200 ppm. CHLOR 12 is a multipurpose disinfectant, which can be used to sanitise hard surfaces and non-porous surfaces such as dishes, glasses and utensils.

Application:

Fruit: 100-200 ppm. Make sure pH and contact time is followed for effective sanitising.

Chlorine will degrade with time and temperature. Make sure you check ppm levels regularly.

SHELF LIFE:

As a quality assured manufacturer, Castle Chemicals has a stringent Quality assurance programme. As part of this regime, the label on this product shows a batch number and date of manufacture. This product has a shelf life of 24 months from the label printed date of manufacture. This information contained herein is based on data considered accurate. However, no warranty is expressed or implied regarding the accuracy of these data or the results to be obtained from the use thereof. Castle Chemicals assumes no responsibility for personal injury or property damage to vendees, users or third parties caused by the material. Such vendees or users assume all risks associated with the use of material.
