Easy Wash Plus

Laundry Liquid Detergent

Product Description:

EASY WASH PLUS is a blue, slightly viscous liquid. It has been specially formulated incorporating biodegradable surfactants, sequestering agents and optical brightener to achieve outstanding results for general laundry purposes. The product is indicated for the washing of whites and colours, cottons and synthetics. EASY WASH PLUS can be used on its own (ideal for woollens) or may be used with CIDAL OR OXY PLUS - proven Castle Castles Hygiene Rinse biocides for laundry operation. For optimum results as a prewash, use in wash water temperatures from 45°C to 65°C.

EASY WASH PLUS anti-redeposition agent keeps soils suspended and assists in the complete removal of soils and detergent by thorough and efficient rinsing.

EASY WASH PLUS contains an optical brightening agent which enhances and revitalises colours. These agents therefore, counteract the tendency for 'greying' which often occurs in fabrics after prolonged washing.

Application:

EASY WASH PLUS is manufactured to be used in conjunction with CIDAL or OXY PLUS for biocidal activity.

	22 kg Dry Weight Linen
Light Soiling	75-100 ml
Medium Soiling	100-120 ml
Heavy Soiling	120-150 ml
Extreme Heavy Soiling	150-200 ml
