## Hot Spot

### Oven and Grill Cleaner

#### Product Description:

HOT SPOT is an alkaline, DG rated, oven and grill cleaner developed for daily application as a maintenance cleaner.

HOT SPOT has the caustic strength to remove mild carbon and grease deposits from cast iron, steel, stainless steel, glass, enamel and ceramic surfaces.

Wetting and emulsifying agents, ensures fast penetration and thorough rinsing.

#### Application:

HOT SPOT will effectively clean ovens, grill plates, fry pans, rotisseries, cook tops and deep fryers.

Warm oven or hot plate grill, and then switch off. Spray side walls of oven first, then top and bottom.

Allow solution to work for 10 to 15 minutes on warm surfaces or 30 minutes on cold surfaces, some agitation will assist clean. Wipe off with damp cloth, sponge or paper towel. DO NOT spray on electrical connections and avoid contact with fabric, linoleum, paintwork or aluminium.

#### Food Safety Statement:

With regard to the use of this product as a cleaner and / or sanitiser that may have incidental contact with food:

- 1) The raw materials / ingredients of this product are permitted as 'processing aids' as listed under clause 12 of the Food Standard Code 1.3.3 (Food Standards Australia New Zealand FSANZ) or
