IHL Fabri Det

Heavy Duty Liquid Laundry Detergent

Product Description:

IHL FABRI DET is a blue, slightly viscous liquid. It has been specially formulated incorporating biodegradable surfactants, sequestering agents and optical brightener to achieve outstanding results for general laundry purposes. The product is indicated for the washing of whites and colours, cottons and synthetics. IHL FABRI DET can be used on its own (ideal for woollens). For optimum results as a prewash, use in wash water temperatures from 45°C to 65°C.

IHL FABRI DET, being a liquid, is ideally suited for controlled feeding through automatic dispensing systems. Accurate economical usage is therefore assured.

IHL FABRI DET anti-redeposition agent keeps soils suspended and assists in the complete removal of soils and detergent by thorough and efficient rinsing.

IHL FABRI DET contains an optical brightening agent which enhances and revitalises colours. These agents therefore, counteract the tendency for 'greying' which often occurs in fabrics after prolonged washing.

Application:

IHL FABRI DET is manufactured to be used in conjunction with IHL ALKALINE BREAK WASH, to obtain optimum results in light to heavy soiled laundry operations.

	22 kg Dry Weight Linen
Light Soiling	75 – 100 ml
Medium Soiling	100 – 120 ml
Heavy Soiling	120 – 150 ml
Extreme Heavy Soiling	150 – 2 v 200 ml

Fitness For Purpose:

- 1) An FFP - Fit For Purpose Statement is available for this product when used in an export meat facility.
