## M-Add-A

### Laundry Reclaim/Rewash Additive

#### Product Description:

M-Add-A is a specially formulated laundry reclaim / rewash additive. M-Add-A has been specifically developed to aid with the removal of particularly 'stubborn' staining and discolouration. Often these problems may be associated with poor raw water quality /staining. A concentrated and powerful combination of alkalinity boosters / sequestrants and stain removal complexing agents.

#### Application:

M-Add-A is added directly to the reclaim / rewash at the wash stage. The 'in use' concentrations for M-Add-A are very specific to the type of rewash problem and material fabrics involved. Please consult with your Castle Chemicals Technical Representative for specific application instructions. The compliance criteria for a Phosphate detergent according to ACSMA is 'NP' – contains no phosphorus if the level of phosphorus measured is  $\leq 0.5\%$  in usage.

**SHELF LIFE:** As a quality assured manufacturer, Castle Chemicals has a stringent Quality assurance programme. As part of this regime, the label on this product shows a batch number and date of manufacture. This product has a shelf life of 12 months from the label printed date of manufacture. This information contained herein is based on data considered accurate. However, no warranty is expressed or implied regarding the accuracy of these data or the results to be obtained from the use thereof. Castle Chemicals assumes no responsibility for personal injury or property damage to vendees, users or third parties caused by the material. Such vendees or users assume all risks associated with the use of material.
