Nappi Clean

Colour Safe Powdered Bleach

Product Description:

NAPPI CLEAN is a free flowing, colour safe, white crystalline powder used for bleaching and stain removal in laundries and kitchens, by releasing oxygen when mixed with water.

Application:

NAPPI CLEAN releases oxygen when mixed with water. This allows for safety on all fabrics and wash fast colours.

NAPPI CLEAN gives the best results by adding 14 grams of product to 10 litres of wash water, at a temperature of at least 35°C. For optimum performance, the temperature of the water should be between 50-60°C.

SHELF LIFE: As a quality assured manufacturer, Castle Chemicals has a stringent Quality assurance programme. As part of this regime, the label on this product shows a batch number and date of manufacture. This product has a shelf life of 12 months from the label printed date of manufacture. This information contained herein is based on data considered accurate. However, no warranty is expressed or implied regarding the accuracy of these data or the results to be obtained from the use thereof. Castle Chemicals assumes no responsibility for personal injury or property damage to vendees, users or third parties caused by the material. Such vendees or users assume all risks associated with the use of material.
