

# Saniprep RTU

## Food Service Sanitiser

### Product Description:

SANIPREP-RTU is a no rinsing hard surfaces sanitiser for use in food preparation and service areas where there is a requirement for high standards of sanitation for food contact surfaces.

SANIPREP-RTU satisfies the criteria for TGA Option C as a Commercial grade Disinfectant when used undiluted according to manufacturer of the Quaternary Ammonium Compound disinfectant.

- Satisfies the criteria required for a no rinse sanitiser in food processing and food manufacturing facilities.
- Versatile – formulated also to be used as a spray and wipe on all non-porous surfaces.
- Quick Drying – dries thoroughly and quickly without spotting or streaking.

### Application:

It is a recommendation that SANIPREP-RTU be used as it is supplied, in a 750ml trigger spray-do not dilute. To use SANIPREP-RTU, spray on the surface covering a large area to maximise contact time, and then wipe off excess, preferably with clean unused paper towel. Allow to dry. SANIPREP-RTU can also be used in a no rinse program.

### Food Safety Statement:

With regard to the use of this product as a cleaner and / or sanitiser that may have incidental contact with food:

- 1) The raw materials / ingredients of this product are permitted as 'processing aids' as listed under clause 12 of the Food Standard Code 1.3.3 (Food Standards Australia New Zealand FSANZ) or
- 2) Are Generally Regarded As Safe (GRAS) according to the US Food and Drug Administration (FDA) or are recognised in the US Code of Federal Regulations (CFR) Title 21 part 178 as indirect food additives.

When used in accordance with the directions described in this product technical bulletin, this product complies with these recognised food safety parameters.
