

Technical Bulletin

Shine

Machine Glass Washing Liquid Detergent

Product Description:

SHINE is a clear, odourless, very alkaline liquid. It is a carefully balanced blend of low foaming cleansers, alkalis, and water softening agents and is readily miscible with water.

SHINE is a complex non chlorinated formulation which ensures efficient soil removal and cleaning of glasses.

Application:

SHINE is manufactured specifically for use in glass washing machines and MUST NOT be used for washing dishes by hand. It should be dispensed by means of an electronic detergent feeder which gives absolute control over detergent usage, resulting in minimum operating costs. Suggested warewash concentration of 0.15% > 0.2%.

NOTE: The use of RINSE AID in the rinse water will promote rapid, streak free drying of articles.

SHINE is very alkaline and contact with skin and eyes should be avoided. If splashed, remove contaminated clothing and bathe affected areas thoroughly with water. If swallowed, give milk or water.

DO NOT induce vomiting. Contact a doctor or Poisons Information Centre immediately.

Food Safety Statement:

With regard to the use of this product as a cleaner and / or sanitiser that may have incidental contact with food:

- 1) The raw materials / ingredients of this product are permitted as 'processing aids' as listed under clause 12 of the Food Standard Code 1.3.3 (Food Standards Australia New Zealand FSANZ) or
- 2) Are Generally Regarded As Safe (GRAS) according to the US Food and Drug Administration (FDA) or are recognised in the US Code of Federal Regulations (CFR) Title 21 part 178 as indirect food additives.

When used in accordance with the directions described in this product technical bulletin, this product complies with these recognised food safety parameters.
