Tarsolv-Me

Micro Emulsion Tar Asphalt and Bitumen Detergent

Product Description:

Castle Chemicals TARSOLV-ME is a next generation cleaning detergent. Effective in cleaning and removing tar asphalt & bitumen films from bitumen laying vehicles, plant and equipment. TARSOLV-ME safely removes and emulsifies TAB deposits from metallic, concrete, painted and other surfaces.

TARSOLV-ME is not a harsh solvent cleaner, but a sophisticated Micro Emulsion of a solvent in a powerful detergent base. TARSOLV-ME is neutral in colour, with mild odour, containing neither acid nor alkali. The incorporated solvent is a high Kb (kauri butanol) solvent blend, it should be used with only suitable gloves / goggles precautions for protection of skin, clothing or equipment.

Unlike harsh solvent cleaners, the flash point of TARSOLV-ME is >70oC so is classed as non-flammable to Australian Dangerous Goods Code

Application:

General cleaning of light and heavy-duty machinery - i.e. Truck bodies, Guards, Panels etc. Can be used neat by spraying or mopping on, left to soak for 1 - 15 minutes then hosed off with water (use pressure nozzle on hose).

TARSOLV-ME can also be used neat to clean up oil/grease spills from garage floors, around boiler burners, fuel oil fill points, etc. Apply TARSOLV-ME neat to trouble spots and hose off with water spray into sump pits for disposal. TARSOLV-ME emulsifies when rinsed off with water.

TARSOLV-ME is available in 20 litre and 200 litre non returnable containers.

SHELF LIFE: As a quality assured manufacturer, Castle Chemicals has a stringent Quality assurance programme. As part of this regime, the label on this product shows a batch number and date of manufacture. This product has a shelf life of 24 months from the label printed date of manufacture. This information contained herein is based on data considered accurate. However, no warranty is expressed or implied regarding the accuracy of these data or the results to be obtained from the use thereof. Castle Chemicals assumes no responsibility for personal injury or property damage to vendees, users or third parties caused by the material. Such vendees or users assume all risks associated with the use of material. **Page 1 of 1**
