

CASTLE 873

Citrus Coating

Product Description:

CASTLE 873 is a high solids food grade shellac wax designed to function as a post harvest coating that helps to control moisture loss and ensures a long lasting shine.

CASTLE 873 provides improved resistance to chalking or whitening whilst associated with long term and overseas storage.

Suited for all export markets.

Application:

CASTLE 873 is best applied through a Micron 2000 Applicator. Fruit must enter the waxing section dry. Brushes should be 50/50 horsehair/poly.

Preparation is the most important part in waxing. Clean the fruit of any dirt or residues first. This will improve the finished gloss.

CASTLE 873 can be used at approximately 1 to 1.5 per tonne of fruit.

SHELF LIFE:

As a quality assured manufacturer, Castle Chemicals has a stringent Quality assurance programme. As part of this regime, the label on this product shows a batch number and date of manufacture.
