Clear Glass

Cutlery and Crockery Soak Cleaner

Product Description:

CLEAR GLASS is a safe, light blue powdered product with a minimum chlorine odour, developed specially to remove coffee, tea and food stains, making cleaning of cutlery, glasses and crockery easy.

Application:

Always add water first to the container before adding CLEAR CLASS to the soak.

Pre Soaking:

Of beer and drink glasses (lipstick removal) , crockery and cutlery with egg, gravy and dried on food soils
Use 15 – 20 grams per 10 litres of hot water (60-65 C).

Destaining:

Routine soaking of cups prevents build-up of residues which contribute to the formation of unsightly tannin stains which appear on melamine cups, crockery and stainless steel teapots.

Tannin Stains:

30-40 grams per 15 litres

Food Safety Statement:

With regard to the use of this product as a cleaner/sanitiser that may have incidental contact with food:

- 1) The raw materials / ingredients of this product are permitted as 'processing aids' as listed under clause 12 of the Food Standard Code 1.3.3 (Food Standards Australia New Zealand FSANZ) or
- 2) Are Generally Regarded As Safe (GRAS) according to the US Food and Drug Administration (FDA) or are recognised in the US Code of Federal Regulations (CFR) Title 21 part 178 as indirect food additives.

When used in accordance with the directions described in this product technical bulletin, this product complies with these recognised food safety parameters.
