

## FOOD-SLIP

### Food Conveyor Lubricant/Release Agent

#### Product Description:

FOOD SLIP is a silicone emulsion for use with materials coming into incidental contact with food. It is an effective lubricant and release agent for all surfaces and materials, including plastics and rubber parts such as conveyors, gaskets, grommets, bushings and plastisol compounds.

#### Application:

FOOD SLIP can be applied by any conventional means such as swabbing, brushing or spraying. Conveyor applications can be automated via a dosing pump system. In most applications as a release agent, it should be diluted with water before use.

Concentrations of 1.0-3.0% have been found to be most effective.

#### Food Safety Statement:

1. The raw materials / ingredients of this product are permitted as 'processing aids' as listed under clause 12 of the Food Standard Code 1.3.3 (Food Standards Australia New Zealand FSANZ) or
2. Are Generally Regarded As Safe (GRAS) according to the US Food and Drug Administration (FDA) or are recognised in the US Code of Federal Regulations (CFR) Title 21 part 178 as indirect food additives.

When used in accordance with the directions described in this product technical bulletin, this product complies with these recognised food safety parameters.

#### SHELF LIFE:
