Glissen

Liquid Machine Dishwashing Detergent (ALUMINIUM SAFE)

Product Description:

GLISSEN is a clear yellow, odourless, alkaline machine dishwash liquid. GLISSEN is formulated to be aluminium safe yet provide exceptional grease and soil removal even in medium hard water conditions. GLISSEN is a carefully balanced blend of low foaming cleansers, alkalis, aluminium corrosion inhibitors and water softening agents and is readily miscible with water.

- Safe on Aluminium
- Exceptional grease and oil detergency
- Hard water scale inhibitors built in to maximise detergency
- Tough, highly concentrated product that goes a long way!

Ideal for:

Hospitals, Hotels, Motels, Restaurants

Convalescent Homes

Articles Dry Odour Free

Schools & Cafeterias

Ideal for Automatic Dispensing

Canteens

Washes dishes sparkling clean

Guest Houses

No Dissolving Problems

Application:

GLISSEN is manufactured specifically for use in dish washing machines and **MUST NOT** be used for washing dishes by hand. It should be dispensed by means of an electronic detergent feeder which gives absolute control over detergent usage, resulting in minimum operating costs. Ideal suggested warewash concentration of between 2 and 5 g/L of dishwash volume (0.2 -0.5%).

NOTE: The use of Castle Chemicals RINSE ALL in the rinse water will promote rapid, streak free drying of articles.

GLISSEN is very alkaline and contact with skin and eyes should be avoided. If splashed, remove contaminated clothing and bathe affected areas thoroughly with water. If swallowed, give milk or water. **DO NOT** induce vomiting. Contact a doctor or Poisons Information Centre immediately. Packed in 25 litre drums.

Food Safety Statement:

With regard to the use of this product as a cleaner and / or sanitiser that may have incidental contact with food:

- 1) The raw materials / ingredients of this product are permitted as 'processing aids' as listed under clause 12 of the Food Standard Code 1.3.3 (Food Standards Australia New Zealand FSANZ) or
- 2) Are Generally Regarded As Safe (GRAS) according to the US Food and Drug Administration (FDA) or are recognised in the US Code of Federal Regulations (CFR) Title 21 part 178 as indirect food additives.

When used in accordance with the directions described in this product technical bulletin, this product complies with these recognised food safety parameters.
