

Technical Bulletin

Kleer

Hand Sanitiser Cleanser

Product Description:

KLEER is an alcohol based "instant" hand sanitiser cleanser. It allows rapid and thorough water free sanitisation of the hands. KLEER has a product formulation that is suitable for use by staff in food processing areas, including meat export (AQIS) facilities. Fitness for purpose documentation available.

- Sanitisers
- Refreshes with a mild citrus food essence
- And soothes with Moisturisers and Emollients
- Non toxic, meets protocol for health care personnel hand wash.
- Helps to protect against health hazards related to exposure to body fluids, blood borne pathogens and other infectious materials.

Application:

KLEER may be used to supplement routine hand sanitising or whenever soap and water hand sanitising is not immediately feasible. Kleer provides a simple route to clean, refreshed hands with soothing moisturisers to prevent dry skin. Apply liberally without water. Rub hands briskly until dry. No rinse required.

Food Safety Statement/Fitness For Purpose:

With regard to the use of this product as a cleaner and / or sanitiser that may have incidental contact with food:

- 1) The raw materials / ingredients of this product are permitted as processing aids as listed under clause 12 of the Food Standard Code 1.3.3 (Food Standards Australia New Zealand FSANZ) or Are Generally Regarded As Safe (GRAS) according to the US Food and Drug Administration (FDA) or are recognised in the US Code of Federal Regulations (CFR) Title 21 part 178 as indirect food additives.
- 2) An FFP - Fit For Purpose Statement is available for this product when used in an export meat facility.

When used in accordance with the directions described in this product technical bulletin, this product complies with these recognised food safety parameters.
