Technical Bulletin POME

FRUIT WASH

Post Harvest Wash Detergent

Product Description:

POME FRUIT WASH is mildly acidic water based liquid containing blends of anionic detergents. This product was developed for the fast removal of wax layers, soil and debris from pome fruit. The near neutral pH reduces the opportunity for fruit damage.

POME FRUIT WASH efficiently emulsifies and disperses soils thus preventing a redepositing of the soils back onto clean fruit.

POME FRUIT WASH has excellent soil & natural wax removing properties, leaves no residual odours and is economical to use.

Application:

POME FRUIT WASH is best applied by dripping or a foam application over fruit. For best results have 6 – 8 brushes for the application of POME FRUIT WASH.

Dilute POME FRUIT WASH FROM 1:20 (40ml/Litre) up to 1:50(50ml/Litre) with up to water followed by fresh water rinse.

Food Safety Statement:

With regard to the use of this product as a cleaner that may have incidental contact with food:

- The raw materials / ingredients of this product are permitted as 'processing aids' as listed under clause 12 of the Food Standard Code 1.3.3 (Food Standards Australia New Zealand FSANZ) or
