Rinse All

Concentrated Machine Dishwashing Drying Aid

Product Description:

RINSE ALL is a concentrated super wetting agent, which enables glassware, dishes and utensils to dry thoroughly and quickly without spotting or streaking. RINSE ALL is designed to be applied in the rinse cycle of automatic dish washing machines through rinse injectors, recommended by Castle Chemicals.

Application:

Apply RINSE ALL through automatic rinse additive meter. Meters are standardised by Castle Chemicals Technical Representatives to inject the correct quantity into the machine.

RINSE ALL is highly concentrated, requiring only a few millilitres to each litre of water. RINSE ALL does not foam to impede the washing cycle. RINSE ALL special formula breaks the surface tension of water droplets and enable water to sheet off crockery etc, rapidly and completely to leave articles spotless.

Approved by leading Dishwashing machine manufacturers.

TYPE: Concentrated super wetting agent
MISCIBILITY: Miscible with water in all proportions
COMPOSITION: Biodegradable wetting agents
ODOUR: Odourless
FLAMMABILITY: Non flammable
COLOUR: Blue
RINSE ABILITY: Fast, free rinsing
pH: 9-10 HARD WATER TOLERANCE: Excellent

Food Safety Statement:

With regard to the use of this product as a cleaner/sanitiser that may have incidental contact with food:

- 1) The raw materials / ingredients of this product are permitted as 'processing aids' as listed under clause 12 of the Food Standard Code 1.3.3 (Food Standards Australia New Zealand FSANZ) or
- 2) Are Generally Regarded As Safe (GRAS) according to the US Food and Drug Administration (FDA) or are recognised in the US Code of Federal Regulations (CFR) Title 21 part 178 as indirect food additives.

When used in accordance with the directions described in this product technical bulletin, this product complies with these recognised food safety parameters.

SHELF LIFE: As a quality assured manufacturer, Castle Chemicals has a stringent Quality assurance programme. As part of this regime, the label on this product shows a batch number and date of manufacture. This product has a shelf life of 24 months from the label printed date of manufacture.
