## Alkasat HSP

### Alkali Blended SUPAsat Style Powder

#### Product Description:

ALKASAT HSP is a finely powdered alkali source specifically designed for SUPAsat style soluble powder dilution Car Wash systems.

ALKASAT HSP provides the heavy-duty alkali builder base for your Aquashine Alkasat super concentrated detergents.

ALKASAT HSP is a cost-effective way to boost performance of SUPAsat style powder systems. Uses site water to deliver optimum concentration without transporting water or liquid concentrates.

ALKASAT HSP effectively and efficiently delivers the power to all types of friction and touchless systems and in combination with suitable Aquashine Alkasat detergent removes road film and caked on soils. Performs well in hard or soft water and is free rinsing.

Highly Alkaline Powder – Delivers a powerful punch and provides maximum effective solution life.

Economically priced

– Best value for cost effective results.

Convenient 20Kg Pack

– Simply add one box of powder to your SUPAsat style tank.

Free flowing finely divided powder, lean white powder with no fragrance.

#### Application:

Simply add one box of powder to your SUPAsat style tank.
