

BreakThru

Heavy Duty Liquid Detergent for Removal of Fatty Soils from Hard Surfaces

Product Description:

Clear, pale, straw coloured liquid, which appears slightly milky on dilution. BREAKTHRU is a highly alkaline water based liquid, containing blends of anionic detergents. It is a product developed for the fast and safe removal of fats and greasy soils from floor, walls and equipment in food processing areas.

BREAKTHRU is described as a 'Quick Break Detergent' and has been tested to break within the 60 minute parameter.

MADE TO CUT GREASE IN MEAT CUTTING ROOMS...BREAKTHRU. It's specially formulated to cut animal fats, and what a job it does! BREAKTHRU - now ready to go to work on hard surfaces...wherever grease is a problem.

It takes a special grease cutting formulation to break through grease barriers and get hard to clean surface clean. Castle Chemicals BREAKTHRU penetrates, lifts and dissolves grease and soil deposits. It's a true heavy duty cleaner which gets hard surfaces clean without hard scrubbing. Cleans up in minutes instead of hours. Castle Chemicals BREAKTHRU degreasing cleaner, not only gets commercial and institutional washable surfaces and equipment clean, but does it fast and easy! A hot water rinse completes the job. BREAKTHRU is ideal for walls, floors, equipment where a heavy duty cleaner can be used. There's no grit or abrasives to scratch surfaces, and you can choose the cleaning method that best suits your needs.

1. BREAKTHRU is designed for use in food processing areas, where it is necessary to remove organic soils such as meat fats and greases from hard surfaces.
2. BREAKTHRU rapidly penetrates soils and displaces these from the surface to be cleaned.
3. BREAKTHRU effectively emulsifies and disperses soils, thus preventing redeposition of the soils back onto the clean surface.
4. BREAKTHRU rinses freely and thoroughly.
5. Because of the efficient cleaning and free rinsing properties of BREAKTHRU, no slippery and hazardous residues are left on surfaces, such as ceramic tiles, quarry tiles, concrete and vinyl.
6. BREAKTHRU is equally effective in both hard and soft water.
7. BREAKTHRU is safe to use on all hard surfaces at recommended dilutions.

NOTE: BREAKTHRU should not be used on Aluminium.
