

D2000 - SIMPLICITY Warewash Program

Introducing the D2000 - Simplicity Warewash Program. This program combines safety with efficiency to maximise product performance.

D2000 Is:

- Easier handling for kitchen staff.
- No leaks or drips, no chemical exposure.
- Capsules reduce change overs and increase speed creating a continuous workflow.
- Reduces packaging waste which reduces environmental burden.
- Greatly reduced storage and transportation costs.

Warewash SIMPLICITY enhances the value of your operation with three principals: clean, safe and simple.

Clean

Premium 100% active products for one-pass clean dishes, crystal-clear glassware and spotless silverware PLUS clean, scale-free equipment.

Safe

Lightweight 4.5kg capsule reduces operator strain.

Simple

Easy product change and reduced inventory cost simplifies the reordering process.

Evidence that makes a difference

1 carton = 5x15L

One carton of D2000 with encapsulated powder technology corresponds to approximately 5x15L of a conventional liquid concentrate.

An Innovation in worker safety

Lightweight 4.5kg capsule - long-lasting and reduces the number of lifts against a conventional liquid system.

Capsule bowl wall-mounted - replacement done without bent back or knee squats.

Flushing cap technology - no-clog format allows complete use and removal of product, reduces risk of chemical contact at change over.

Capsule and bowl dispenser limits risk of chemical

D2000 - Simplicity and Performance

- Stabilised chlorine for improved destaining and protein removal
- Anti-scale boosters for reduced descaling
 - No-clog flushing cap technology
- Low-foam and aluminium safe options
