

Hi-Touch

Hydrogen Peroxide Disinfecting Cleaner

Don't Let Germs Take Over Your Environment

Kills bacteria in as fast as 30 seconds

Did you know many competitive products require 10 minutes to kill bacteria? By harnessing the unique power of hydrogen peroxide, Hi-Touch disinfects in as fast as 30 seconds - Significantly faster than other leading non-bleach disinfectants on the market today.*

It's important that the disinfectant you choose kills the germs that are of the greatest concern to public health. Hi-Touch Hydrogen Peroxide Disinfecting Cleaner is able to kill more problematic germs than the leading competitive products - helping you better protect your environments from the spread of germs.

Science of Clean

A new solution for Castle

Castle is proud to offer patented and proprietary hydrogen peroxide technology that offers disinfection and powerful cleaning.

Better User Experience

Hi-Touch Hydrogen Peroxide Disinfecting Cleaner is designed to be easier on those who use them on a regular basis.

- No harsh chemical fumes or smell
- Less irritation for skin
- No fragrances or dyes added
- Non-combustible, non-staining

Economics of Clean

Faster Contact Times for Disinfecting

When you need to disinfect those high-touch 'hot spots' (think desktops, handles, faucets, water fountains, locker room surfaces, etc.) - you can't afford to use products that require long contact times to kill germs. Hi-Touch Hydrogen Peroxide Disinfecting Cleaner kills germs of highest concern in as fast as 30 seconds - so you can feel confident you are getting the job done quickly and efficiently.

Versatile One-Step Cleaner Disinfectant

Use Hi-Touch Hydrogen Peroxide Disinfecting Cleaner to clean and disinfect a wide variety of surfaces, From classrooms to work places to gyms - anywhere germs can lurk.

*versus leading competition based on Federal EPA Master Label comparison (as of April 2013) Use as directed on hard, non-porous surfaces.

Castle Chemicals

Solutions, Chemistry, Service

Since 1972

Powered by Peroxide Technology

 **Proprietary and patented activate hydrogen peroxide technology**

 **Contains plant-based cleaning agents**

 **No VOC's (volatile organic compounds) to help maintain good indoor air quality**

Facts about Hydrogen Peroxide

Breaks down soil and stains, destroys odours and provides colour-safe bleaching action.

An effective germ killer, it causes bacteria to quickly decompose, rendering them harmless.

Degrades quickly into water and oxygen after use, leaving no active residue behind.

Does not deliver troublesome gaseous release or chemical residues associated with other chemical oxidants.

Kills Germs of Public Concern

When disinfecting, it's imperative that you are effectively killing the bacterial that can be most problematic to public health. Hi-Touch Hydrogen Peroxide Disinfecting Cleaner is able to kill more of these high-risk germs than other competitive, ready-to-use wipes and sprays on the market today.*

Competitive Comparison of Disinfecting Dwell Times

How long surface must remain wet to kill germs

| Dwell times up top 10x Faster | Hi-Touch Hydrogen Peroxide Disinfecting Cleaner |
|-------------------------------|---|
| Bacteria | 30sec-1min |

*Non recommended for use on aluminium, wood or natural stone.
