Cleaning Vinegar

10% Acetic Acid

Product Description:

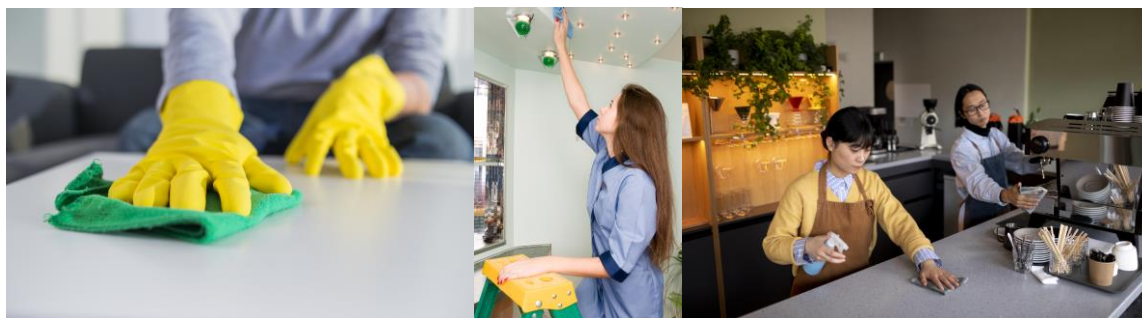

Description:

Cleaning Vinegar is a powerful, cleaning agent formulated with 10% acetic acid.

It is specially designed to remove mineral deposits, soap scum, grease, rust and light limescale from a wide range of surfaces, including tiles, glass, stainless steel, and benchtops.

The product also possesses natural deodorising properties, making it effective at neutralising unpleasant odours commonly found in kitchens, bathrooms, and other commercial or residential areas.

Not for use on shiny surfaces.

Application:

- General surface cleaning
- Bathroom and kitchen maintenance
- Glass and mirror cleaning
- Odour neutralisation
- Removal of light limescale and mineral deposits

Directions for use:

Dilution:

Spray and Wipe – dilute 1 to 20 parts water

Grease and stains – dilute 1 to 10 parts water

Mold and bacteria treatment – dilute 1 to 5 parts water and leave for 10 to 15 minutes, then rinse.

Available in 20L drum. Code: 20181-20T
