## CHEMI-LU

### Sanitary Fluid for Portable Toilet Systems

#### Product Description:

**CHEMI-LU** is a non-formaldehyde product designed as a toilet waste and odour neutraliser. It combines two highly effective, biodegradable bacteriostatic agents with a pleasant and enduring Bubble Gum fragrance to deliver exceptional performance in waste control and freshness.

The formulation incorporates a specially selected, non-staining dye that provides effective visual masking of waste while minimising the risk of permanent discolouration to tanks, bowls, and fittings. This non-staining characteristic also makes incidental spillage or surface contact significantly easier to clean, reducing service time and maintaining a professional appearance.

- Building industry on site portable toilets.
- Marine, aviation, camping porta-loo's.
- Nursing home commodes.
- Underground mining portable toilets.
- Sanitary napkin disposable systems.
- CHEMI-LU does not contain formaldehyde.
- CHEMI-LU does not affect the waste treatment facility where final discharge of waste occurs.
- **CHEMI-LU has a unique fragrance that absorbs and masks offensive odours.**
- **CHEMI-LU is non-staining.**
- CHEMI-LU allows for similar frequency of service to existing formaldehyde treatment products.
- Biodegradable and can be disposed of through the municipal sewerage treatment systems.

#### Application:

2 litres to 90 litres. Increasing in warmer weather – 4 litres to 90 litres.  
Seasonal changes may affect the recommended dilution rate.

COLOUR	Deep Dark Blue
ODOUR	Pleasant Bubble Gum
pH	4.0 – 6.0
COMPOSITION	See Safety Data Sheet
