

## BETTA ALPHA PRE-SOAK

### Product Description:

BETTA ALPHA PRESOAK introduces the next generation of unique synergistic formula chemistry to provide outstanding cleaning performance not previously seen in Auto Car Wash Applications. This blend of surfactants and lower levels of alkaline boosters – allows the products to be safer on vehicles- safer on equipment – safer for site operators.

This next generation of alkaline presoak cleaning is exceptional and will clean vehicles up to 50% better than any competitor's product. It can easily remove layering soils that build up on the vehicles surface. A better clean allows improvement in application of conditioners and protectants.

NOTHING CLEANS like BETTA ALPHA PRESOAK in combination with ALPHA BOOST and ALPHA Low Ph as a SINGLE PASS, maintenance wash when vehicles go through the auto car wash regularly.

BETTA ALPHA PRESOAK with BETTA ALPHA BOOST requires 2 passes.

### Features for Benefits

- |                             |   |
|-----------------------------|---|
| Lower Alkalinity            | = Safer on Vehicles, Equipment & Site Operators |
| Increased Cleaning Capacity | = Improves conditioner & protectant performance |
| Single Pass Application     | = Higher Vehicle Throughput                     |
| Safe on Paint Protection    | = Increases vehicle traffic                     |

### Application:

BETTA ALPHA PRESOAK is best applied through on-site set-up by Castle's specialist installer. Site equipment be in tunnel or in bay auto, will determine best application rates.

Code: 55101
