

Lemongrass

Disinfectant

Product Description:

LEMON GRASS has been developed as an economical reodorant disinfectant based on QUAT chemistry to provide excellent multi-purpose germicidal detergency that disinfects, cleans, and deodorizes in one easy step.

LEMON GRASS is a distinctive sweet 'Lemongrass' fragrance product.

- This unique tangy fragrance has a fresh characteristic that does not become stale during the detectable life of the product.
- The unusual fragrance rate is sufficient to sustain interest by visitors and employees alike.
- Acts in three ways: As a Disinfectant
As a Deodorant
As a Reodorant
- Kills the commonly found species of bacteria transmitted in toilet and washroom areas.
- Concentrated for economical use: 1:30 dilution meets the TGA Commercial Grade Rating
- Safe for use in septic tanks.

Application:

In general, it is suggested that DISINFECTANT be diluted 1:30 with cold water, this will retain fragrance levels over the use of hot water. The use of warm to hot water will reduce drying times when moping a floor but will reduce the time fragrance will be noticeable of the working solution.

DO NOT RINSE after moping the area, if you require the Lemongrass solution to be effective as a disinfectant.
