

S4 Foaming Brush Wash

High Foaming, Self-Serve Foam Brush Compound

Code: Red 33133, Blue, 33131, Yellow 33134, White 33132

Product Description:

S4 Foaming Brush Wash is a high foaming, concentrated liquid detergent with a pleasant bubble gum fragrance. Uniquely formulated for use in manual wash bays via a foam brush head. Suitable for both single cycle and reclaim type operations and compatible with equipment used in self-service car washes. A specialised surfactant system allows maximum effective solution life and helps reduce the natural tendency for solution to emit unpleasant odours after prolonged service life in reclaim operations. Completely biodegradable with no phosphates makes it an ideal product for use in areas where effluent outputs may be restricted.

S4 Foaming Brush Wash effectively removes road film and heavy soil. Performs well in hard or soft water and is free rinsing. S4 Foaming Brush Wash produces copious quantities of high lubricity, dense lustrous foam at very economical use dilutions. The high lubricity reduces surface friction while maintaining excellent cling qualities. S4 Foaming Brush Wash helps to improve brush life and is harmless to all vehicle finishes.

- **Long Solution Life:** Unique detergent system allows maximum effective solution life.
- **Lubricates Brushes:** Produces copious quantities of high lubricity foam to ensure maximum brush life.
- **Hard Water Tolerant:** Performs well in both hard and soft water.
- **Non-Phosphate:** Can be used in municipalities where phosphate effluent is restricted.
- **Biodegradable:** Completely biodegradable. No effluent disposal problems.
- Suitable for use with foam brush and foaming equipment used in self-service car washes.
- Available in Red, Blue, Yellow and White

Application:

Initial Charging of Reclaim Systems:

Calculate volume capacity of water in system; charge at the rate of approx. 1 litre per 1,000 litres. Adjust injector to deliver dilutions for normal operating conditions.

Foam Brush in Self Service Washes:

Adjust dosing equipment to achieve a final use up to a dilution of 1:300.

Storage:

Store in the original, tightly closed container in a cool, dry place away from direct sunlight and extreme temperatures. Protect from frost. Recommended storage temperature: 5–30 °C.

Handling Precautions:

If swallowed, DO NOT induce vomiting. Give a glass of water. If skin contact occurs, remove contaminated clothing and wash skin thoroughly. If in eyes, hold eyes open, flood with water for at least 15 minutes. Remove contact lenses if worn. If irritation persists seek medical advice.

For further information, please consult the Safety Data Sheet.

DISCLAIMER: COLOURED FOAM WASH

Due to the high level of dyes (colour) used in car wash formulations, Castle takes no responsibility if a car is affected by staining. Vehicles with pre-existing damage or sun affected paint work should not use dyed (colour) based car wash chemicals. Ensure vehicles are thoroughly rinsed after use.

Shelf Life:

As a quality assured manufacturer, Castle Chemicals has a stringent Quality Assurance programme. As part of this regime, the label on this product shows a batch number and date of manufacture. This product has a shelf life of 12 months from the label printed date of manufacture. This information contained herein is based on data considered accurate. However, no warranty is expressed or implied regarding the accuracy of these data or the results to be obtained from the use thereof. Castle Chemicals assumes no responsibility for personal injury or property damage to vendees, users or third parties caused by the material. Such vendees or users assume all risks associated with the use of material.
