

TOTAL CLEANOUT

The **ultimate clean** for your spray equipment

Multipurpose cleaning concentrate for spray equipment.

Total Clean Out decontaminates most pesticides residues including Sulfonylurea and Phenoxy Herbicides. It has an extended shelf and contains blue tracer dye.

Total Clean Out is a cost effective, proprietary pesticide decontaminant containing a mixture of available Chlorine, Caustic Soda, Sodium Metasilicate Pentahydrate and a highly effective wetting agent which is designed to cleanout and decontaminate virtually all pesticide residues

from spraying equipment. Total Clean Out is more concentrated and has an extended shelf life compared to other liquid decontaminants. Treatment with Total Clean Out should be carried out when changing between pesticide types and for end of season cleanup.
